

Sonexis Provides Conferencing Solution to Oregon Office of Administrative Hearings

TEWKSBURY, Mass. — May 11, 2010 — Sonexis Technology, Inc., a leading provider of on-premise enterprise audio and web conferencing platforms, is pleased to announce that the Oregon Office of Administrative Hearings (OAH) has chosen to utilize Sonexis ConferenceManager™ to support its daily operations. The OAH has unique requirements for a conferencing solution. The office holds over 40,000 hearings per year, the majority of which are conducted via conference call, and each of these sessions are required to be recorded and stored. In case of an appeal, the stored recordings could be transcribed and then reviewed by the court for further ruling.

Initially, OAH searched for on-premise systems as well as hosted solutions. After considering various offerings, OAH decided to implement ConferenceManager™ from Sonexis utilizing their Managed Service Offering (MSO). “Sonexis was very creative in proposing to host the system we were buying at their data center. The superior collaboration functionality, ease of administration, and reasonable cost of the ConferenceManager fulfilled the conferencing selection criteria of the OAH, and the Managed Service Offering provided additional cost savings while allowing us to focus on our core competencies.” said Lorrin King, Administrative Services Manager for the Oregon Office of Administrative Hearings.

“The transition to ConferenceManager was extremely smooth, one of the easiest transitions I've been through in my 25 year career” Ms. King continued. “The training was the best I've ever experienced. The trainer was extremely knowledgeable, communicated technical information in a manner that was very easy to understand, and was patient and flexible during the training. The support leading up to, during and after implementation has been exceptional.”

When asked about her ongoing relationship with Sonexis, Ms. King said “ConferenceManager definitely meets our needs and offers functionality that we haven't even tapped into yet. Our experience working with Sonexis has been a pleasure. I would highly recommend Sonexis to any organization looking for an audio conferencing solution.”

About State of Oregon-Office of Administrative Hearings

In 1999 the Oregon Legislature created the Office of Administrative Hearings to provide an independent and impartial forum for citizens and businesses to dispute state agency action against them. With more than 70 professional administrative law judges, they hold over 40,000 hearings a year for four large state agencies and approximately 70 small agencies, boards and commissions. Oregon is now the 22nd state in the nation with an independent central panel of administrative law judges.
